

B Verifying Pregnancy

Verify the participant is pregnant by a signed written statement from, or a [collateral contact](#) to, any of the following:

- A licensed doctor
- A health care professional
- Licensed physician's assistant
- Registered nurse
- Licensed practical nurse

NOTE To locate a Women's Health Care Clinic for a pregnancy test, contact the Pregnancy and Breastfeeding Hotline. (See [Baby Arizona Hotline Phone Number](#))

When verification of pregnancy is not available, and the baby has been born, verify pregnancy for the birth month using any of the following items:

- Hospital birth certificate
- Crib card
- Statement from vital statistics
- Application for the baby
- Provider referred application
- [Deemed Newborn Reports](#)

WARNING

Do not use any of the following to verify pregnancy:

- Ultrasound pictures
- Home pregnancy tests
- Statements verifying the participant took a pregnancy test

- Key the Verification Code in the VR field on MAST.

For Expected Delivery Date (EDD) verification, see [Verifying EDD](#)
